Overview

David Cavender KC is a leading expert in commercial dispute resolution, both in litigation and international arbitration. He is an immensely experienced trial lawyer, having appeared in a significant number of High Court trials, in numerous appeals before the Court of Appeal and seven appeals before the Supreme Court.

He is currently acting for the many thousands of motor finance claimants for claims under s.140A Consumer Credit Act relating to discretionary commission payments in *Angel v. Black Horse Ltd* (this is the claim that survived the success of the finance companies in relation to the fiduciary duty claim which was dismissed by the Supreme Court in *Johnson v. First Rand Bank*). This is a groundbreaking claim seeking the right to bring the “discretionary” CCA claims against each of the numerous finance companies on a group basis by way of an “omnibus” single claim form – rather than having to issue many thousands of individual (small) claims. David won the point (on appeal) before Richie J. The finance companies subsequently obtained permission to appeal. The Court of Appeal will hear the appeal on 22/23 April 2026.

David’s expertise covers the gamut of banking and financial services, commercial contracts (including agency), fraud, company law and insolvency, contractual building and engineering disputes, among other areas.

His precedent-setting and high-profile engagements include acting for Ocado Group in relation to a conspiracy claim against a senior IT manager and newco competitor set up by a former founder of Ocado (Ocado Group PLC & Anr v McKeeve); acting for Mike Ashley (Sports Direct/Newcastle United), successfully defending against claim by a consultant investment banker appointed by Sports Direct for a bonus of £14 million relating to company share price

performance (*Blue v Mike Ashley*); and acting on behalf of a large group of Claimants involved in the Mercedes-Benz NOx Emissions Group Litigation against Mercedes in relation to damages claims for deceit, breach of statutory duty and against suppliers of vehicles in breach of contract, arising from defeat devices allegedly being introduced by manufacturers into diesel engines to enable them to pass emissions tests. oeclaw.co.uk David is regularly recognised as a top-tier disputes practitioner by third-party industry publications and directories, and has been ranked as a leader for commercial disputes in the Chambers UK Bar guide for many years. He has also been recognised in The Legal 500 UK Bar guide, in which commentators praise his “great instincts and feel for how the court will receive a case” and his “gravitas to bring the bench with him.”
