He has represented both Her Majesty's Revenue and Customs and taxpayers in a series of high profile disputes, including for HMRC the long-running Eclipse 35 and Ingenious film scheme litigation. satisfactory settlement of disputes.

In addition to his substantial litigation practice Malcolm also advises on all aspects of commercial, European and international taxation, for both incorporated and unincorporated entities, their shareholders and employees. He covers all the main direct taxes, value added tax, national insurance, stamp and other duties, and the related double tax treaty, European and administrative law.
